Proposal for Teacher's Day's ITE Department Booth

In anticipation of Teacher's Day on October 4, 2024, our department has carefully planned a booth to enhance the celebration and bring more joy to the occasion. Our department proposes to set up a booth to sell a variety of products that will appeal to both teachers and students. Our proposed booth will feature the following:

ITE Department Merchandize	- Customized Keychains - Customized Pins	The merchandise serves as a way for students and teachers to express their connection to the ITE Department while promoting a sense of unity and pride.
Fruit Soda	Flavors are yet to be decided.	These drinks will provide a flavorful and refreshing option, perfect for the warm weather.
Sweets	- Cookies - Crinkles - Graham Balls	These sweets will deliver a delightful balance of flavor and sweetness, making them the perfect treat to enjoy during the celebration.

Our department's booth will bring a fun and tasty experience to Teacher's Day, while also promoting department pride and raising funds. We are confident that our booth will contribute positively to the celebration and provide a delightful experience for all teachers and students.

Thank you for considering this request. We look forward to your favorable approval. Thank you for your time and understanding.
